► Alpha: As I was giving the game a chance, I couldn't stop thinking to myself that if I were to see the graphics of the game, then I would say that it looks like its made of paper. However, after spending so many hours in the game, the game ends up to become more interesting than I expected. There is an animation to the movement and the battle system, but still the graphics are pretty impressive. I am not saying that it's a masterpiece, but I think that it's a pretty good start for the game to show you what this game is all about. ► BRASSBANDER I really enjoyed playing this game. It's simple but really fun. I was interested in the story, and the character design, especially the spells. Although the game is short, it can feel like you are free to have plenty of fun. ► NATION: This game's graphics are quite poor. The character's movements are slow and jerky, and they are unrealistic. However, with the game's unique story and dungeon crawling, it's quite fun! This game should be interesting to people who enjoy RPG's. ► 2ND HAND I liked the game. The combination of the point and click adventure mode with the turn based action mode. I could play it for hours, and I enjoyed it. My only problem was how the main character is modeled. I thought it was quite odd, to say the least. ► Skill-shot Mania First of all, I like the game. There is not too much in the way of story (as compared to some

games), but I like the game's aesthetics. The turn based battle system is a nice addition to it. Because of this, I bought this game. ► EMPYticism As I was playing this game, I got the impression that its made by some random person. Actually, the music, sound effects, and background music were perfect, though. The story was simple and relatively short, but I really like this type of game. Even though the characters are few, they are well-developed. The graphics were plain, but a huge amount of fun. Now, with all of this out of the way, this game has some good points and some bad points. If you are expecting an RPG, then this game is probably not for you. It's bff6bb2d33
