The Rulers and the people of Tarnis are expecting an important city to be recovered from the Lands Beyond. In the midst of this, the two brothers, Rance and Darian, of no background in the Empire, appear in the Temen market square. Take, for example, the role of a warrior under the command of an Elden Lord. As an apprentice warrior, you take part in the civil war between the forces of the Law (and its equivalent, Paladins) and the forces of Chaos (and its equivalent, Barbarians). If you lie and deceive your enemies, you betray the Old Order. If you pledge absolute loyalty to the law, you betray the Old Order. Either way, the promises you have given, the friends you have betrayed, and your honor will bear the full brunt of the law or chaos that wins.

Those in the Lands Between are put in between the chaos of the chaos races and the Law, a space between the worlds. Success or failure will decide the outcome of the war for the world. There is no revolution, no revolution. There is only the presence of a big conflict between the law and chaos.

What could I gain if I win

Elden Lords can perform Special Abilities to benefit themselves or enemies.

Ability: Well of Fate

When an enemy attacks the Elden Lord, he and all his allies can roll up to (n)th dice. If the roll is even, the enemy is forced to attack empty space. If the roll is odd, the enemy is forced to attack the target that was rolling. (The exact sequence of this happens when the Elden Lord). If the roll is 2, the Elden Lord gets a massive bonus to his attack.

Ability: Death's Promises

If an Elden Lord makes an attack against an enemy, and succeeds, the enemy rolls for one free OA check. (The other way around applies to the Elden Lord).
