Indonesia Sex Tourism - Social and Sustainable Tourism in Bali “This was a big surprise to find that this type of tourism can succeed without putting the environment at risk,” said Supendra, a member of the Hotel Association of Bali. He pointed out that the point of tourism in Bali is to increase visitors’ willingness to spend money and be tourists by using the tourism infrastructure to improve their experiences. “Tourism does not just mean visiting the five-star hotels. It can also be in the form of a small guesthouse, such as the one we found,” he said. Johor Darul Ta'zim al-Bukti is a relatively well-known issue with development and poverty, which has yet to gain widespread attention from the country’s tourism operators. At stake is control of several land and buildings - referred to as the Bukti property - in the seaside town of Bukit Batok. Anzor, 36, said he was at the Bukti property all day with several people from the village on Sunday and Monday, and explained that its owner is a distant relative. Anzor said he could not recall any specific issues, and noted that the owner's family suffered all the usual problems associated with villagers. “His life is troubled by problems such as malaria, with some members of his family being bitten by mosquitoes and other illnesses. That is why they live and work in this area, away from civilisation,” he said. The property owner, whose name was not reported by name, continued to build and expand the homes on the property, despite living in the Bukti area. According to Anzor, the tenant farm owner has a mortgage on the property and said he has to repair the property to keep it. “The locals have to pay for the land and building

repairs for their own property,” said Anzor. While the discussion centred on the village resident, his motives were not clear. “Because this is Bukti, and the water from the property is very salty, people know about the problem, and people who come to build a house there cannot buy land for their properties because the houses are made of bamboo, not bricks, and the land is too salty,” said Yit Sunarel, a resident of Bukit Batok. The local residents
